

**90 Minute Stroll (3 miles)**  
 Designed by Tom Fisher – March 2016

With your back to the pub turn left and pick up the Worcestershire Way at the waymarker. Follow the grass path and then join the stone track. Turn right and follow this stone track for 300 yards past the converted chapel on your left till you come to a cross-roads of paths.

Cider Mill Farm is ahead of you but turn left up the hill in a deep sunken track, or, if this is muddy, use the grassy path running parallel to this up the hill.

At the top of the sunken track, pick up a stone track which will take you to the football pitch. Turn right by the side of the pitch and at the half-way line take the left hand fork over the common. This pleasant ride brings you to a stone track. Go straight across and follow the path through some trees to a new house that is being built. Here cut across a grass track to another stone track and turn right.

This track takes you through some trees and past Cop Castle and Brackenberry. At Belvue, turn sharp right past Brackentops. Continue ahead straight across a stone track and you will soon reach the football pitch and six-ways junction.

Take the fourth "exit" (two o'clock), though others will do, and climb onto a short but exhilarating walk along the ridge and past the massive Gospel Oak, marking the boundary between Whitbourne and Linton parishes. Carry on to meet the track to the pub at the Bringsty notice board. Now cross the track and go straight ahead to the top of the Jubilee and enjoy the panoramic views from the viewfinder on top. Now go straight on and after 50 yards bear left on a grass path which winds down the hill. Above the house with the lake, Barratt's Bridge, the path levels out and you follow the path keeping the Jubilee on your left. You then go past a house on the left and back to the pub.
